Make your kitchen area work for you with clever design tricks that can make the most of every inch

FEATURE HAYLEY GILBERT

### OPEN ENDED

**Right** The owner of this property wanted to keep the kitchen within the architectural heritage and use contemporary styling with 'green' materials. Charlie Kingham created an open-plan kitchen that wouldn't dominate the downstairs area, using a plain panel Shaker style with hand-painted finish. Priced at £210,000, it's finished in Farrow & Ball's London Clay with the island in Jenner's Brown

### TALL ORDER

**Below** The brief for this kitchen was to create room to cook, dine and entertain. The large extension with vaulted ceiling was the ideal space and by taking down a dividing wall, the designer has created a super-sized kitchen-living area with bespoke Hartford cabinetry and Silstone Yukon work surfaces. Prices start from £55,000 at Tom Howley
