Small wonders

Make a modest area work both practically and visually with a design-led kitchen that packs in plenty

FEATURE **HAYLEY GILBERT**

CLEAR VIEW

Eye-level cabinetry can make a kitchen feel more enclosed. This design includes masses of storage space in the base cabinets and even incorporates a mini island. Life Kitchens are priced from £25,000

THE BIG CHALLENGE

Even bigger kitchens can present challenges, if large windows or period features create awkward spaces. In this situation, bespoke cabinetry is ideal – here, the height and depth variations of the Hampton cabinetry ensures it does not feel overwhelming while corner units and over-appliance cabinetry provide perfect solutions. McCarron & Co kitchens are priced from £35,000
