A walk on the dark side

Blacks, greys and blues
are getting deeper in the
kitchen for a look that's
moody and mysterious.

This Alno Star Sund Graphite kitchen with Barazza steel tops demonstrates how being bold can be highly effective, matching all details in the same warm, dark colour to create a sleek and elegant look but inviting at the same time. Lighting and accessories are key to getting it right, with steel tops providing depth and texture. From 30,000 for a fully fitted kitchen. alno.co.uk
