TOP TECH

Our pick of some of the latest innovations that are pushing the technology boundaries...

Fisher & Paykel's new French Door Fridge Freezers have recessed handles and perfectly flat doors which create a streamlined look to fit any kitchen aesthetic and achieve a flush fit with kitchen cabinetry. Available in an matte black glass or stainless steel, the fridge freezer features ActiveSmart Foodcare technology, which intelligently adjusts temperature, airflow, and humidity, to provide the optimal storage temperature and keep food fresher for longer. **Fisher & Paykel / fisherpaykel.com/uk**

The Cache Edge by Westin is available in three standard sizes and features tuneable dynamic lighting along with the innovative Westin Edge baseplate that collects fumes over a much larger area compared to a conventional built-in hood. **Westin / westin.co.uk**
